

COUNTY COMMISSIONER MINUTES

JANUARY 2, 2008

LARAMIE, WYOMING

The Regular Meeting of the Board was called to order 9:35 a.m. by Chairman Chesnut. Commissioners Gabriel and Kennedy were also present.

A Public Hearing was held regarding the Pronghorn Subdivision Preliminary and Final Plats. There being no comment, MOTION was made by Commissioner Kennedy, seconded by Commissioner Gabriel and unanimously carried to CLOSE the Public Hearing at 9:36 a.m.

A second Public Hearing was held regarding the Paddocks at Fort Sanders Land Use Change (Commercial to Residential). There being no comment, MOTION was made by Commissioner Gabriel, seconded by Commissioner Kennedy and unanimously carried to CLOSE the Public Hearing at 9:36 a.m.

A third Public Hearing was held regarding the Kunz Conditional Use Permit (Kart Track and Mixed Use). There being no comment, MOTION was made by Commissioner Kennedy, seconded by Commissioner Gabriel and unanimously carried to CLOSE the Public Hearing at 9:37 a.m.

During Public Comment Tim Hale asked the Board if the Casper Aquifer would be an item for discussion at today's meeting. Chairman Chesnut commented that a Memorandum of Understanding had been drafted between the City of Laramie and the County and that it would most likely come before the Board in about a month.

Mr. Hale further commented that he understood there was a meeting recently with the City regarding this matter and that Dr. Gary Linford had been invited but then was asked to leave prior to the start of the meeting. He expressed his concern that it seems the public is not being asked to participate in the meetings. County Planner Doug Bryant commented that he was at the meeting and that Dr. Linford was present at the beginning of the meeting and then stepped out for discussion. Mr. Bryant further commented that the meeting was intended for staff and the consultant and that future meetings would be scheduled for public input. County and Prosecuting Attorney Richard Bohling indicated any meeting relative to this matter should be open to the public.

Larry Garrett who resides in Centennial stated that he had lived there for the last five months and after purchasing his property he had been faced with certain issues relative to water, roads, etc. He expressed his appreciation to the county attorney, planner and sheriff for helping to resolve the problems in Centennial.

Dr. Linford then commented about the unique situation in Laramie with academic backgrounds and that the public should benefit from the expertise being offered, particularly with the gaping holes in the City of Laramie with lack of planners, an attorney and other personnel. The community should be utilizing the free services of those in the community who have the expertise. He further commented that international students could possibly bring parasites into the community and into the sewage system. Laramie is not as high risk as other communities. He stated that if we all work together we can make this a better community and should utilize free services available.

Tim Hale publicly thanked Dr. Linford for sharing his expertise with the community although he feels it is met with deaf ears at times. Mr. Bryant stated that he felt with the consultants and others present at the meeting, it was very constructive. Dr. Linford stated that when he spoke about lack of expertise, he was referring only to the gaps in personnel in the City.

Chairman Chesnut indicated that the County will make every effort to see that future meetings are open to the public as the Aquifer is one of the most important assets we have in our community.

Commissioner Kennedy passed along compliments he had received for the graveling, signage, etc. on the Fetterman Road and Cottonwood Park Road.

MOTION was made by Commissioner Kennedy, seconded by Commissioner Gabriel and unanimously carried to APPROVE the Consent Agenda and that each action be approved as indicated: APPROVE the MINUTES of the December 18, 2007 Regular Meeting of the Board; ACKNOWLEDGE RECEIPT of the November 14, 2007 MINUTES and December 12, 2007 AGENDA of the Albany County Public Library Board of Directors; ACKNOWLEDGE RECEIPT of the December 11, 2007 BALANCE SHEET of the Albany County Fair Board; ACKNOWLEDGE RECEIPT of the June 30, 2007 and 2006 FINANCIAL REPORT of Albany County Association for Retarded Children, Inc.; ACKNOWLEDGE RECEIPT of the December 17, 2007 AGENDAS of the Albany County Public Library Board of Directors; ACKNOWLEDGE RECEIPT of the MONTHLY STATEMENT for the month ending October 2007 and November 2007 from Grant Showacre, County Assessor; ACKNOWLEDGE RECEIPT of the MONTHLY STATEMENT for the month ending November 2007 from Doug Bryant, County Planner; APPROVE the following Zoning Certificate: ZC-001-08 Flack, Ryan; ACKNOWLEDGE RECEIPT of the November 20, 2007 MINUTES of the Laramie Rivers Conservation District, and ACKNOWLEDGE RECEIPT of CORRESPONDENCE directed to the Board.

County Planner Doug Bryant spoke regarding the preliminary and final plats for Pronghorn Subdivision. Pronghorn Dowery, LLC is the owner and is represented at the meeting today.

The applicant is proposing 14, five-acre lots. The parcels are relatively flat and will have a primary access with a secondary access being available. Individual water and wastewater systems will be the responsibility of individual lot developers. The Department of Environmental Quality has given a non-adverse recommendation. The access would be served by a 50 foot perimeter road easement around the 14 lots to take care of the flammable materials. The Fire Warden has recommended approval of the proposed installation of a 15,000 gallon water tank for fire suppression. The Laramie Rivers Conservation District has no objection but recommended additional thinning. Because of the simplicity of the proposed subdivision, the preliminary and final plats are being handled jointly. The Planning and Zoning Commission recommended approval. Mr. Bryant recommends approval but with review by the County Attorney and review by the Board of County Commissioners of a security assignment for road construction and right-of-way clearance.

MOTION was made by Commissioner Gabriel, seconded by Commissioner Kennedy and unanimously carried to APPROVE the Preliminary and Final Plats for the Pronghorn Subdivision based upon the recommendations made by the County Planner and the following Findings of Fact and Conclusions of Law:

Findings of Fact:

Preliminary Plat

1. The proposed subdivision is within the jurisdiction of Albany County.
2. Water will be provided by individual wells and individual wastewater systems will treat sewage.
3. The density of the subdivision is residential lots of 5 acres or greater.
4. The lots have access provided to an unpaved USFS road.
5. No steep slope, geologic hazards or significant drainage problems are shown.
6. Fire safety requirements will be required as commented upon by the Albany County Fire Warden.

Final Plat

1. The proposed subdivision is within the jurisdiction of Albany County and the County's subdivision regulations are applicable.
2. The density of the subdivision is residential lots of 5 acres or greater.
3. The lots have access provided to an unpaved USFS road.
4. No steep slope, geologic hazards or significant drainage problems are shown.
5. Fire safety requirements will be required as commented upon by the Albany County Fire Warden.
6. Notice to nearby property owners was sent, as required, in advance of the Planning & Zoning Commission meeting.

Conclusions of Law: The provisions of the Albany County Platting and Subdivision Resolution, Chapters I-VIII and Appendix A have been and will be complied with.

County Planner Doug Bryant then discussed the Land Use Change (zone change) for two parcels within the proposed Paddocks at Fort Sanders Subdivision. The proposal involves two large parcels owned by Neptune Management Corp to be zoned commercial instead of residential. Water will be provided by the South of Laramie Water and Sewer District. The Department of Environmental Quality is fine with the proposal. Individual wastewater systems will be installed. The Fire Warden feels the nearby hydrants are adequate. It is anticipated that the Howe Road traffic study will be completed for the consideration of the final plat. The reimbursement agreement for the traffic study is available.

MOTION was made by Commissioner Kennedy, seconded by Commissioner Gabriel and unanimously carried to APPROVE the Land Use/Zoning Change for the proposed Paddocks at Fort Sanders Subdivision based upon the following Findings of Fact and Conclusions of Law:

Findings of Fact:

1. The property exceeds 5-acres in size, the minimum for residential zoned property.
2. The property's use as residential is consistent with area properties along Howe Road and South Knoll subdivision.
3. The necessary findings for approval, as listed in this report, are incorporated herein as findings of fact.

Conclusions of Law: The requirements of the Albany County Zoning Resolution, Chapter V, Section 5 (change in Land Use Classification) have been complied with.

County Planner Doug Bryant also discussed the two-part application from Manuel Kunz for a Conditional Use Permit for an outdoor kart track and mixed use on a commercial property. Mr. Bryant distributed a copy of an e-mail he had received from a concerned neighbor to the property, Greg Von Krosigk. The proposed property is a 17-acre tract approximately 12 miles south of Laramie adjacent to Highway 287. Stevenson Road runs along the north edge. There is commercial property to the north including trucking storage and a mobile home park.

The track will be paved utilizing five or less rental carts only at one time. Karts will utilize mufflers. It will be a day-time operation, and no public address system will be used. A noise analysis has been done. Much of the track lay-out will lie in a depression. Harney Creek Estates borders the subject property. The greatest concern is the noise factor particularly with the neighbors to the east of Harney Creek Estates. Three of the lots will be within one-half mile of the boundary. The applicants used their own decibel meter, and

the second reading taken in December was marginal or near the limit with a reading of 57 decibels. The daytime limit is 55 within the City limits with ambient noise to be considered. The level could be as high as 60 decibels within 25 feet of the boundary lines. The test should be administered when the wind speed is 25 miles per hour or less.

Industrial septic systems will be installed. There will be a limit of 100 customers and employees at any one time during hours of operation. No carts will be allowed other than those owned by the business. The property is to be cleared of all trash, and future buildings shall be set back at least 100 feet.

Commissioner Kennedy indicated he was not comfortable with limiting the number of people who could be in attendance at one time. Mr. Kunz did ask if a special permit could be issued to allow more people and change the time of operation. Mr. Bryant indicated he felt it would be difficult to change the conditions as written. The recommendation for limitation actually came from the Planning and Zoning Commission to alleviate traffic congestion on Stevenson Road. Chairman Chesnut stated that he would prefer to delete the limitation requirement. Commissioner Gabriel requested clarification of the name of the nearby development. Mr. Bryant indicated it is the Harney Creek Estates Subdivision which was initially set up as Royal Wolf, so the two names are interchangeable.

MOTION was made by Commissioner Gabriel, seconded by Commissioner Kennedy and unanimously carried to APPROVE the Conditional Use Permit for an outdoor kart track and mixed use on a commercial property based upon the following Findings of Fact, Conclusions of Law, and recommendations of the Planning Office deleting item #3 “a limit of 100 customers and employees at the property at one time shall be adhered to:”

Findings Necessary for Approval:

1. Not adversely affect the public interest. Location adjacent to Highway 287, also bordered by a railroad line, and two commercial zone properties, approximately 10 miles from residential density, would appear to be in a reasonable location for proposed business, kart sales, demonstrations and commercial recreation (kart track).
2. Provide adequate site plans and maps. Applicant has provided an adequate site plan for the proposed commercial development.
3. Adequately address the following:
 - a. Leap frog/strip development – Development of commercial zoned parcel is a reasonable in-fill of existing commercial areas.
 - b. Economic – Proposed clean-up and commercial use of vacant property will enhance economic value of property.
 - c. Air quality – No significant air quality effects to be expected from proposed commercial business.

- d. Water quality – No adverse effects expected.
- e. Separation of uses – Proposed use is not incompatible with adjacent commercial and agriculture properties. One existing residence, a mobile home park and three lots of the Harney Creek Ranch large lot subdivision are within ½ mile of the subject property.
- f. Screening & buffering – Topography and distance will substantially separate this property from surrounding businesses and residences.
- g. General nuisances – Potential nuisances, *e.g.* light, noise, and odors must be minimized as to off-site effects. Applicant indicates the karts emit noise at a level comparable to lawn mowers. He further states the noise would be expected to be less than the sounds of the adjacent highway and railroad. The applicant, in response to concerns raised about potential noise from the karts, proposed a demonstration at the property. On three proposed demonstration dates, neighbors were invited to listen. The applicant purchased a decibel meter and County staff contacted the Laramie Police Department for assistance using their decibel meter and operator.

On the first demonstration, Commander Jeff Bury, of the Laramie Police Department, was unable to conduct sound measurements due to high winds. On the second site visit, December 12th, Commander Bury did take sound measurements at different locations, including at the east boundary (Harney Creek). Wind speed was 25 mph with higher speed gusts. Commander Bury's equipment has a "windscreen" which allows testing in winds up to 25 mph. At the east boundary, an average of 57 dBA was measured.

Applicants offered an additional opportunity for a demonstration for the neighbors on December 22-23. The demonstration did not occur because neighbors did not request such. It should be noted the weather was inclement and it was the weekend before Christmas. Noise, generated by the karts, will be mitigated by a variety of conditions to the conditional use permit. (See Staff Recommendation)

- h. Traffic – Applicant has obtained an approach permit from WYDOT for ingress and egress.
- i. Parking – The site will provide adequate parking for customers and loading.
- j. Exterior lighting – Outside lighting, if installed, will comply with County regulations.
- k. Refuse area – Refuse collection area will be provided by applicant.
- l. Signs – Signage will comply with County regulations.

Findings of Fact:

- 1. The Necessary Findings for Approval, as listed in this report, are incorporated herein as findings of fact.

Conclusions of Law: The requirements of the Albany County Zoning Resolution, Chapter V, Section 4 (conditional use permits) have been complied with. Notice by publication and mail to nearby landowners has been made.

Staff Recommendation: Staff recommends approval of the conditional uses, outdoor kart track and mixed use (residential and commercial) based upon findings of fact and conclusions of law as stated in this staff report and with the following conditions:

1. Hours of operation for the outdoor track shall be between 9:00 a.m. and 8:00 p.m. or dusk whichever occurs earlier.
2. An industrial septic system will be installed prior to opening of the business.
3. Item deleted per above.
4. Installed landscaping shall substantially comply with the landscape plan submitted to the County. The landscaping shall employ drip irrigation and shall be installed prior to opening of the business. Any shrubs/trees which die shall be replaced within one year.
5. The decibel level (dBA) of the outdoor kart track at or within 25' of the subject property boundaries shall not exceed 60 dBA. This level shall include ambient noise unless a train is passing or the wind speed is over 25 mph.
6. No karts, not owned by the business, may be used on the track unless the business owner inspects and finds any such private karts are equipped with mufflers and/or other equipment which suppress engine noise to a level similar to or less than the business rental karts.
7. Karts may only be operated on paved (asphalt/concrete) surface.
8. The property shall be cleaned-up of all junk and trash. The property shall be maintained free of junk and trash. Any trash containers, business equipment (*e.g.* kart parts) shall be enclosed or screened appropriately.
9. Any future buildings development shall be set back at least 100' from the north and east boundaries.
10. The track lay-out shall be laid out substantially as shown in the applicant's site plan.
11. Disturbed areas shall be reseeded to provide vegetative cover as soon as possible during or following construction.

Doug Bryant spoke regarding the current Fee Schedule in the Planning Office. He indicated that fees were last adjusted about five years ago and the proposed increased fees will come closer to reflecting County costs of processing applications. Some of the significant changes include an increase in subdivision fees, mileage, establish fees for processing temporary towers and small wind energy system permits and doubling the "late fee." MOTION was made by Commissioner Kennedy, seconded by Commissioner Gabriel and unanimously carried to AUTHORIZE publication of the proposed fee schedule for the Planning Department.

Doug Bryant distributed a substitute agreement between Delich Associates and the County to perform a traffic and safety study on Howe Road as changes had been made from the initial contract. There is a 45-day period to review and provide the study. Costs for the study will be reimbursed by Neptune Management Corp. and John and Heidi Schutterle. Dr. Gary Linford had been asked to look at some of the physics on the heavy trucks using Howe Road and offered to share his theoretics with the traffic study firm. Commissioner Gabriel inquired if Mitch Edwards, who represents Mountain Cement, had a chance to review the new agreement. Mr. Edwards commented that he had not yet seen the new agreement but after discussing the changes felt comfortable going forward with it.

MOTION was made by Commissioner Gabriel, seconded by Commissioner Kennedy and unanimously carried to APPROVE the Agreement between Delich Associates and Albany County to perform a traffic and safety study on Howe Road.

MOTION was made by Commissioner Kennedy, seconded by Commissioner Gabriel and unanimously carried to APPROVE the Professional Services Contract between Peggy A. Trent and Albany County for GAL services contingent upon filling in the blank in the document with the amount for services as set by the court.

The Board was to consider the agreement, 07S-ODP-ALB-EM-GCS7 between Albany County and Wyoming Homeland Security for FY 2007 Emergency Management Performance Grant: Supplemental in the amount of \$10,500.00 to be applied in the Laramie Peak Fire Zone to create an evacuation plan for the entire zone, create a wildland urban interface plan for the zone, and to obtain needed information technology to carry out the plans. Grants Manager Sheela Schermetzler commented that she had just received a letter from Becky Shoemaker of the Laramie Peak Fire Zone relative to this matter and suggested tabling consideration of the grant until the first meeting in February.

MOTION was made by Commissioner Kennedy, seconded by Commissioner Gabriel and unanimously carried to APPROVE amendment number one to original FY 07-08 contract between Wyoming Department of Health, Mental Health and Substance Abuse Division and Albany County Commissioners for Albany County Adult Drug Court. The purpose of the amendment is to increase the Original Contract amount by fourteen thousand seven hundred seventy-one dollars (\$14,771.00) for services outlined in the Original Contract.

MOTION was made by Commissioner Gabriel, seconded by Commissioner Kennedy and unanimously carried to APPROVE submission of application for the Juvenile Accountability Block Grant FY 2007 funds to the Department of Family Services/Division of Juvenile Services in the amount of \$4,679 with a cash match of \$521.88.

MOTION was made by Commissioner Kennedy, seconded by Commissioner Gabriel and unanimously carried to APPROVE the Voucher to WWC Engineering for the 9th Street road reconstruction project in the amount of \$15,193.51 to be paid from County Road Funds.

MOTION was made by Commissioner Gabriel, seconded by Commissioner Kennedy and unanimously carried to APPROVE the Quitclaim Deeds from Albany County, Wyoming to the City of Laramie, Wyoming for the Pierce Street Right-of-Way.

MOTION was made by Commissioner Kennedy, seconded by Commissioner Gabriel and unanimously carried to APPROVE the Notice of Award to Independent Heating & Sheet Metal, Inc., for the Albany County Library HVAC Addition in the amount of \$315,664.08 contingent upon the Library Foundation match of \$20,642.66 and Albany County's match of \$20,642.66 to be taken from Hardship Funds.

Chairman Chesnut recessed the meeting at 10:58 a.m. to take a short break and await the return of the County Clerk and County Treasurer from a funeral to discuss allocation of the hardship, direct aid, and over the caps funds. Upon their return, the discussion began at 11:54 a.m.

Regarding completion of the Courthouse renovation, the last few projects left to be considered are installing the brick on the Elections Building to match the rest of the Courthouse and putting up directories in the building.

It was suggested that money for the Fairgrounds to complete the shooting range project come from over the cap funds. It appears that approximately \$23,246 is needed. Vicky Haley is considering asking for Recreation funds and has submitted some grant applications. As it is not clear as to exactly how much funding is needed, Commissioner Gabriel suggested not making any decisions until the final total is determined.

During the discussion, Chairman Chesnut commented that he would like to see a good amount of monies spent for road and bridge projects. Grants Manager Sheela Schermetzler commented that \$8,333 had been committed for the Lincoln Center during the last budget session. Library Director Susan Simpson stated that the library shortfall could be reduced to \$122,000. It was suggested that perhaps Homeland Security could be contacted to help out with generator backups. County Treasurer Linda Simpson commented that we are unsure as to where the county may end up regarding hardship funds for the next budget cycle. Commissioner Gabriel said that a legislator has indicated to him that the State may not be as generous as in the past.

MOTION was made by Commissioner Kennedy, seconded by Commissioner Gabriel and unanimously carried to APPROVE allocation of funding as follows:

HARDSHIP	PROJECT	AMOUNT	
95,222			
Library	Air Conditioning additional costs	20,643	
GIS	Arc Server Extension	10,000	
Elections	4 Laptops for polls	7,500	
IT	Generator Backups	34,000	
IT	Wall construction and wiring at Annex	15,000	
	TOTAL	87,143	8,079
RENOVATION	PROJECT	AMOUNT	
41,683			
Elections	Brick Election Building	20,000	
Courthouse	Courthouse Landscaping - Ivinson and 6th Street	20,000	
	TOTAL	40,000	1,683
OVER THE CAP	PROJECT	AMOUNT	
917,681			
Road & Bridge	12 ton Dump Truck and snow plow	125,000	
Grants	Lincoln Center Project	8,333	
	TOTAL	133,333	784,348

MOTION was made by Commissioner Kennedy, seconded by Commissioner Gabriel and unanimously carried to APPROVE Vouchers for December 2007 and directs the County Clerk to assign a voucher number to the following vouchers, signature stamp each voucher and to cause warrants to be issued in payment of each such account to wit: as per notation on the vouchers:

GENERAL AND SPECIAL REVENUE EXPENDITURES: 65935, BIG BROTHERS BIG SISTERS, \$1440.00, MONTHLY CONTRACT; 65939, CLIMB WYOMING, \$6831.00, NOVEMBER PAYMENT; 65941, CORONADO ENTERPRISES, \$2304.62, REFLECTIVE VINYL; 65946, FIRST DATA MERCHANT SERVICES, \$16.18, NOVEMBER FEES; 65956, KALCO CONSTRUCTION, \$2691.58, SUPPLIES/LABOR CLERK; 65960, LARAMIE NEWSPAPERS, \$432.04, ADVERTISING; 65961, LARAMIE YOUTH CRISIS CENTER, \$2113.68, NOVEMBER TANF-CPI; 65968, MKK CONSULTING, \$1805.80, PROFESSIONAL SERVICES; 65974, QUILL, \$82.07, OFFICE SUPPLIES; 65975, QWEST, \$329.49, TELEPHONE CHARGES; 65990, TONY VEDACK, \$922.50, CONTRACT LABOR; 65992, WALMART, \$99.34, PARTICIPANT PRIZES; **COMMISSIONERS:** 65969, MODERN PRINTING, \$115.00, PRINTING; **GENERAL ACCOUNTS:** 65937, CITY OF LARAMIE, \$1530.16, UTILITIES; 65948, GE CAPITAL, \$3612.48, COPIER LEASE; 65952, HEWLETT PACKARD, \$3198.00, NETWORK SECURITY; 65953, HILLSBOROUGH PRINTERY, \$282.91, ACCOUNTING FORMS; 65962, LEWAN & ASSOC, \$3506.00, NETWORK SECURITY; 65977, RESERVE ACCOUNT, \$20000.00, POSTAGE FOR METER; 65978, ROCKY MOUNTAIN POWER, \$7813.53, UTILITIES; **COURTHOUSE:** 65928, ACE HARDWARE, \$4.99, CLEANING SUPPLIES; 65931, ALSCO, \$20.00, CLEANING SUPPLIES; 65951, HEATHER PLUMBING, \$164.31, BUILDING MAINTENANCE; 65963, LONG BUILDING TECHNOLOGIES, \$1328.50, CONTRACT; 65976, RC ELECTRIC, \$70.00, BUILDING MAINTENANCE; **CLERK:** 65926, A THRU Z DOCUMENT DESTRUCTION, \$70.00, DESTRUCTION SERVICES; 65969, MODERN PRINTING, \$139.44, OFFICE SUPPLIES; 65971, NADA APPRAISAL GUIDES, \$120.00, RV GUIDE; **GRANTS:** 65970, DARRIN MUNOZ, \$352.00, INTERN HOURS; **ELECTIONS:** 65943, THE ELECTION CENTER, \$250.00, MEMBERSHIP; 65972, PLAINSMAN PRINTING, \$107.10, PRINTED FORMS; 65983, STATE OF WYOMING A&I, \$45.00, STATE ACCESS FEE; **TREASURER:** 65971, NADA APPRAISAL GUIDES, \$140.00, SUBSCRIPTIONS; 65983, STATE OF WYOMING A&I, \$45.00, STATE ACCESS FEE; 65989, VAN'S WHOLESALE, \$20.64, OFFICE SUPPLIES; 65993, WESTERN WATERWORKS, \$7.25, OFFICE SUPPLIES; **ASSESSOR:** 65983, STATE OF WYOMING A&I, \$30.00, STATE ACCESS FEE; **SHERIFF:** 65944, EXPRESS POLICE SUPPLY, \$79.08, UNIFORM EXPENSE; 65966, LEONARD B MEDOFF, \$480.00, CONTRACT SERVICES; 65981, DEAN SHAW, \$187.33, CONTRACT SERVICES; 65988, USPCA, \$80.00, K9 SUPPLIES; 65993, WESTERN WATERWORKS, \$14.50, OFFICE SUPPLIES;

TOTAL EXPENDITURES: \$125,126.94.

MOTION was made by Commissioner Gabriel, seconded by Commissioner Kennedy and unanimously carried to ADJOURN the Regular Meeting of January 2, 2008 at 12:29 a.m.

BOARD OF COUNTY COMMISSIONERS

/s/ Tim Chesnut, Chairman

ATTEST:

Jackie R. Gonzales, County Clerk
