RESOLUTION 2021-025

SUPPORTING COVID-19 VACCINATION EFFORTS BY AUTHORIZING CONTRIBUTIONS UP TO \$25,000 FROM ALBANY COUNTY FUNDS FOR THE PROVISION OF VACCINATION INCENTIVES

WHEREAS, currently available vaccines are protective against the original virus and developed variants, leaving the unvaccinated at most risk. With increased community immunity an infectious disease is less likely to spread. There are people in the community who are unable to be vaccinated or unable to develop a good immune response to the vaccine. With community immunity reducing spread of the virus, a vulnerable person is protected by default. As rates of vaccinations go up, there can be an increase in indirect or community effects. Cases will start to ebb overall, but there will be some ups and downs;

WHEREAS, States with low vaccination rates have the highest transmission rates. As of July 6, 2021, 31.8% of Wyoming's population is fully vaccinated. Wyoming ranks 47th with only Arkansas, Mississippi and Alabama having lower vaccination rates. Currently, 43.4% of Albany County's population is fully vaccinated;

WHEREAS, on July 20, 2021 the Board of Commissioners of Albany County, Wyoming approved Resolution 2021-024 supporting the initiatives of Albany County Public Health and the City of Laramie to achieve a vaccination rate of at least 70%;

WHEREAS, a vaccine project working group consisting of members from the City of Laramie, Albany County, Albany County Public Health, University of Wyoming, Ivinson Memorial Hospital, the Downtown Clinic, and our community have been working on various initiatives including clinics at community events, transportation to vaccine sites and drawings to increase vaccination rates within Albany County; and

WHEREAS, to provide many of these initiatives support and funding from various governmental and non-profit agencies as well as private businesses is necessary to support vaccination incentives and efforts.

NOW THEREFORE THE BOARD OF COUNTY COMMISSIONERS OF ALBANY COUNTY, WYOMING, RESOLVES:

SECTION 1. That foregoing recitals are incorporated in and made part of this resolution by this reference.

Jennifer Curran, Civil Attorney informed the Board that when someone is admitted to the hospital under Title 25, the County is required to pay for the first 3 days plus Saturday,

Sunday, or holidays up to 5 days. The state then picks up the charges after that date. The hospital does bill insurance, Medicare, or Medicaid and once all have been billed, the County picks up the balance due. The billing that was happening in the past was done on a semiannual basis and then switched to monthly. Currently there was billing done from 18 months prior, although in the last contract it was stated that the billing should be for fiscal year of dates of service. There was an amendment that was never signed by either party and the current contract was unclear on payment vs. service dates. Discussion has been had with the hospital and going forward, billing will happen in a timely manner, and we will not exceed the budgeted amount in any fiscal year.
